## About Vitrium

Vitrium delivers content protection and digital rights management (DRM) software to companies that need to protect their videos, documents, images, and audio files.

With over a million end users worldwide and a range of solutions that empower businesses to protect, control, and distribute their content in different ways, Vitrium is the preeminent choice for businesses, government, educational institutions, and content providers across the globe.

Vitrium was the first DRM provider to focus on a “no plug-in, no proprietary apps” approach and this is still the #1 reason why customers choose Vitrium over other solutions.
