Vitrium Security Enterprise: How It Works

Vitrium offers different solutions you can choose from depending on your workflows & distribution needs.

With Vitrium Security Enterprise, leverage Vitrium's advanced DRM software & integrate with your existing systems.

With Vitrium Enterprise:

- › Manage Users & Groups
- › Upload Multiple Content Types
- › Protect Files & Automate Work flows
- › Integrate With Your System

Easily distribute protected content to authorized users, choose different DRM settings, manage policies, assign different permissions, & automate your workflows.

02

The Vitrium Process: Step By Step

PRODUCE —————→ ENCRYPT —————→ SECURE —————→ SSO Access —————→ SHARE

03

The Vitrium Process: Step By Step

- › Manage users in your 3rd party system:
 - Learning Management System (LMS)
 - Customer Relationship Management (CRM)
 - Association Management System (AMS)
 - Others
- › Add multiple content types to the Vitrium Admin App
- › Upload original files manually, via bulk upload, or automated via APIs
- › Manage DRM policies & permissions through Vitrium External Service
- › All originals & all versions of protected files are stored by Vitrium

The Vitrium Enterprise Process

04

The Vitrium Process: OAuth Step By Step

PRODUCE —————> ENCRYPT —————> SECURE —————> SSO Access —————> SHARE

05

The Vitrium Process: OAuth Step By Step

- › Manage users in your OAuth identity provider
- › Add original content files to the Vitrium Admin App
- › Upload files manually, via bulk upload, or automated via APIs
- › Manage DRM policies & permissions through Vitrium External Services
- › All originals & all versions of protected files are stored by Vitrium

The Vitrium OAuth Process

The Vitrium Process: What Do You Get?

Whatever Vitrium solution you choose, we give you complete control over your digital content and the freedom to securely distribute it.

- › Strong protection & encryption of multiple file formats
- › Secure content distribution through a method of your choice
- › Seamless user access without plug-ins or apps
- › Advanced tracking & analytics capabilities to get insight on your users and content

With Vitrium you get a premium drm software solution that will ensure your content is protected, your workflows are automated, and your end users have seamless access.

- › Have peace of mind knowing your content is secure
- › Gain confidence knowing your bottom line is protected
- › Feel relief knowing your IP won't be tampered with
- › Feel satisfied knowing users don't need plug-ins or apps
- › Feel pride knowing users will have an excellent journey

With Vitrium you get a premium drm software solution that will ensure your content is protected, your workflows are automated, and your end users have seamless access.

About Vitrium

Vitrium delivers content protection and digital rights management (DRM) software to companies that need to protect their videos, documents, images, and audio files.

With over a million end users worldwide and a range of solutions that empower businesses to protect, control, and distribute their content in different ways, Vitrium is the preeminent choice for businesses, government, educational institutions, and content providers across the globe.

Vitrium was the first DRM provider to focus on a “no plug-in, no proprietary apps” approach and this is still the #1 reason why customers choose Vitrium over other solutions.
